It is recommended that district conventions for the effection of delegates be neld throughout the state, on or before the 20th day of August, and that committees make early calls for that purpose; and it is especially Sardician bulleting led us to suppose. The last dispatches by the steamer Hungarian, which point out which indicate clearly enough that the Austrians, acting on the offensive, crossed the Mincio from the east to the west bank, and made the attack, will take our readers by surprise .-The movement certainly was unexpected; and t can be accounted for only upon the supposition that the plan of the campaign has been changed and that new leaders have been entrusted with the direction of the Imperial arms. This attack, although so disastrous, is conclusive that the army which made it was not so badly shattered and broken by the defeate at Magenta and Mal-gnano as the French and which overtook it near Milan, make good its retreat to the north east bank of the Micino, and put itself in condition for the gigantic ope. ration at Salferino, is sufficient evidence that its strougth was not so seriously impaired or its spirit daunted by the defeats which it has suffored. What effect this new disaster may have, of course we do not undertake to determine,-That it is greatly magnified by the French accounts transmitted to Paris, we may readily believe; but if it be true that 175,000 men are on their way to swell the forces already array, d under the Austrian banner, the losses experienced will not only be made good, but the force of fighting men will be much larger than at any time since the campaign opened. Admit that the telegraphic accounts are correct—that reinforcements are hastening on each side to the scone of strife-and we must conclude that the greatest buttles of the war are yet to take place. We can have be doubt of the final triumph of the Allies; but it is now evident that it must be achieved by an unexampled outpouring of blood. The news conveyed by them will send a thrill to the heart of every Magyar whose hopes have been vaguely excited by the events passing in Italy. It appears Suffering as the scene of the struggle, and that a general Hungarian committee, composed of Koseuth, Klapka, and Teleki, has been formed, and that to it has been entrusted the direction of all matters relating to the anticipated movements in Hungary. Should the movement not be stopped

by an un toward event, the plan is, as soon as a division of twenty thousand men are assembled, to transport them with the assistance of the French government, which has promised horses for the purpose, to the eastern coast of the Adriatic, from whence they will make their way into Hungary, and serve as a nucleus to the revolutio sists there. They are picked men-the bravest in both armies—the foremost in every battle. In twenty-seven days Italy has been strewn with twenty-seven thousand corpses -poor fellows, who sought an epaulet and found an early grave. A thousand fell in the various early ekirmishes. A thousand marked the invasion of Garibaldi. Nine hundred French and Sardinians fell at the battle of Montebello. Two thousand Austrians perished on the same field. Two hundred Zounves were killed at Palestroas many Sardiniaus died with them. Four hundred Austrians were drowned in the canal. More than twenty thousand must have fallen in the actions at Buffalora and

The Free Democrat, now under direction of Mr. Sholes, says that "the constitution as passed and interpreted by our fathers, authorized congress to prohibit slavery in the Territories." What power could possibly excite a man sufficiently yesterday to exercise his muscles in an attempt to better the figure head of another is a mystery entirely beyond our comprehension. The simple idea of a fight with the thermometer at 100 in the shade is enough to suggest the absurdity of a pugilistic encounter. Particular attention is called to this feature in the mill, as the difficulty of replacing grinding surfaces is from mills, when worn out, is an objection that has been arged with great force against them, and has had the effect to prevent thousands from purchasing, who otherwise would be glad to do so. That objection is entirely done away with in this mill.
